

**AMENDMENTS TO THE SPECIFICATION**

**Page 11, after the last line, which is line 27, please insert the following new paragraphs:**

Fig. 5(a) shows an optical recording medium 50 in accordance with the present invention wherein concave or groove parts located at 52 are shown in more detail in Fig. 5(b).

In Fig. 5(b), black parts 54 representing concave or groove parts and white-gray parts 56 representing protruding parts are shown.

Fig. 5(c) is a cross-section taken along line A-A' of Fig. 5(b), where Rpd and the Center Line are shown.

Fig. 5(d) is a cross-section taken along line B-B' of Fig. 5(b), where Rph and Center Line are shown.

Fig. 6(a) illustrates a header part and a land part where black parts 54 representing concave or groove parts and white-gray parts 56 representing protruding parts as shown.

Fig. 6(b) is a cross-section taken along line C-C' of Fig. 6(a) showing the Header Part and the Land Part in the case of having a Header Part higher than a Land Part.

Fig. 6(c) is a cross-section taken along line C-C' of Fig. 6(a) showing a Header Part and a Land Part in the case of having a Header Part lower than a Land Part.
